Delivery Toilet

— Restroom Access for Delivery Workers

A map-based, end-to-end mobile web application designed to help delivery workers quickly locate **usable restroom** access with clarity, reliability, and low friction.

Toilet Delivery App

A **map-based web app** that helps delivery workers quickly find **usable restrooms** with confidence. By prioritising **reliability**, **clear access information**, and **efficient routing** over simple proximity, the experience reduces uncertainty and supports **low-friction decision-making** during active routes.

Industrious

— Research Report

UX research and strategy project for Industrious. Translating worker **insights** into **actionable recommendations** to improve shared-space engagement and member retention.

Industrious

Research-driven strategy project for Industrious focused on understanding how workplace behaviors, social comfort, and environmental control shape shared-space engagement. Insights informed experience recommendations designed to improve belonging and everyday interaction within coworking environments.
