

Design

Beyond UX, my creative practice is grounded in **visual storytelling** and **graphic experimentation**.

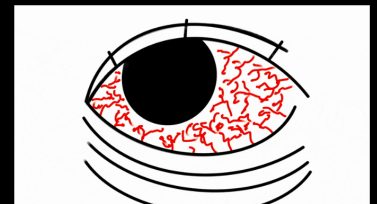

This collection explores typography, branding, and conceptual art as ways to translate complex ideas into striking, minimalist visuals.

It's also a space for me to play with **composition** and form **beyond** traditional product cycles.

"Then a drop of rain
fell
into the sound of the guitar,
hole
another onto the u m d BED.
And after us,
the rain will cease
or it will go on falling,
even upon itself."

Photography

Photography is how I practice looking.

By documenting everyday moments, textures, and environments, I explore framing, rhythm, and atmosphere.

These skills that continue to shape how I approach visual storytelling and interaction design.
